Monitoring the implementation of recommendations		countries are to prepare a country document which will then be merged by the Facilitation into a consolidated document for the three blocs to be presented to the Heads of State
	The Facilitation uses the platform to advocate for the establishment of a security and peace system: Actors targeted: COPAX in Gabon	Regarding the recommendation on the establishment of a system to control the circulation of small arms, wars and drugs between countries.
	The Facilitation should assess the implementation of the last meeting's recommendations during subsequent meetings.  The Facilitation must call on the Leaders, Co-leaders and the PTFs to make concrete commitments to operationalize the country plans  Establish a comprehensive support mechanism for the PTFs	Evaluate resources available for implementing the roadmaps, needs expressed and draw up an inventory of resources that need to be mobilized from the PTFs
